**Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:**

Applicants admitted with a specialist degree in school psychology or a master's degree may be assessed course credit up to a maximum of 60 credits towards the doctoral program's graduate curriculum. Admission with advanced graduate status will be determined on an individual basis after the School Psychology Coordinating Committee reviews the applicant's transcript(s). With 60 credits, applicants would begin the doctoral program in the third year of graduate study. With advanced graduate status, it would take three years to complete the degree with two years of coursework on campus and a 12-month internship. Advanced students would also complete a doctoral dissertation.
