It is a fundamental responsibility of all the members of the University community to maintain the trust of the public in all research and scholarly activity. Failure to adhere to or to secure the required approval for work under research regulations is a violation of the University Research Integrity Policy. Known serious violations of the policy must be reported to University authorities. Retaliation against anyone for having reported alleged serious integrity in research offenses is not allowed under the policy. Reports may be made anonymously. For more information, please contact REC or view the policy at policy.illinoisstate.edu/conduct/1-1-8.shtml.
